**HEALTHY BYTES**

I have a new love - CACAO BEANS! Yes, Chocolate! with no downside! I found these "nibs" at Whole Food Market, but I am sure you can get them at any health food store. At first bite they were really awful, bitter. So I looked it up and found that they are an accent to other things. If you add them to something sweet, they give whatever you are eating an even better flavor. I added them to my Juice Plus "Complete" drink and it went from a very nice drink to a fantastic treat! So why do we want to add cacao beans to our meals? Antioxidants! Cacao adds antioxidants, which protects your body from the damage of life. It also enhances circulation throughout the body. I have found that I have added energy, like the boost of caffeine - but without the jittery feeling. You can add them to many of your meals: desserts, baking, smoothies. Be creative and let me know what you come up with!

contact Gale Bolinger at 974-2459 or at [gale4health@comcast.net](mailto:gale4health@comcast.net)  
*I would like to remind you that these "Healthy Bytes" are my own suggestions and not medical advice.  
I get my references from many practical sources. Please read them with this in mind.*

Please join us for this heart-warming documentary. Everyone is welcome!
